

ROOF SLIDING WINDOWS

Baier[®]

Moving elements of light and shade

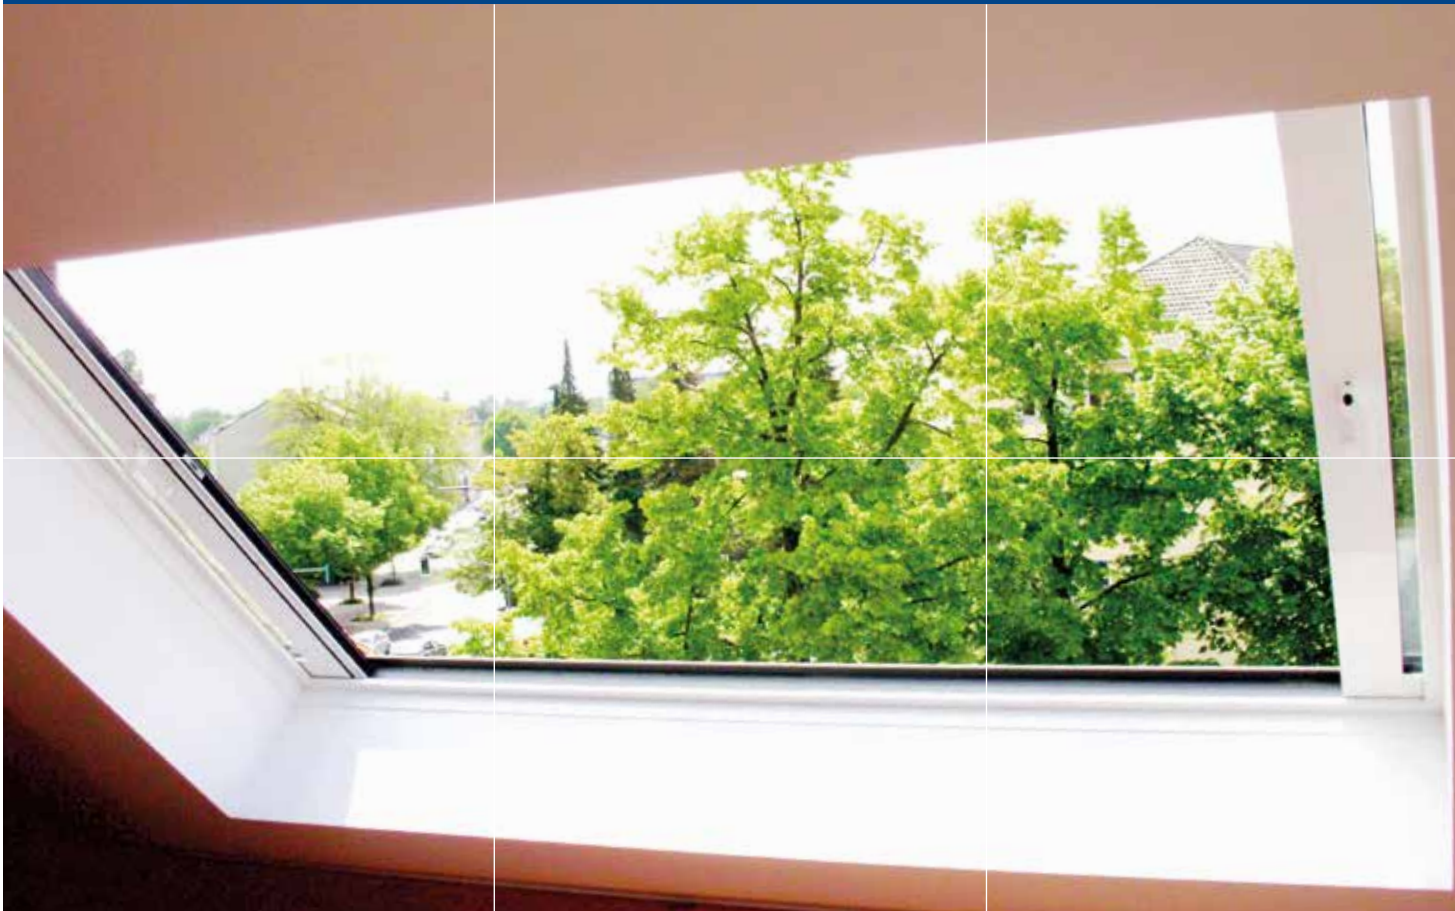

ROOF SLIDING WINDOWS – LIGHT, AIR, QUALITY OF LIFE

Baier means movement. Not only for your façade – Just in time

INDIVIDUAL SOLUTION EXPERTISE – FLEXIBLE AND FAST

Baier means movement. Not only for your façade – Just in time

Roof sliding windows – maximum opening for your roof living space.

Baier creates movement. For more than 40 years Baier has been specialized in the development, production and nationwide assembly of moving facade elements. Besides classic light metal engineering, the product range also includes a portfolio of sliding windows, sliding shutters, drive technology roof window blinds and door technology. Furthermore, Baier is also an acknowledged distributor for other well-known brands.

Baier starts where standard stops. Therefore Baier places significant emphasis on sustainability in function, manufacture as well as design of our products. We consider ourselves to be a reliable partner of developers, architects and craftsmen who provides particularly high demands with regard to individuality and perfection.

Light metal engineering has been our core competence for about 40 years now. Constant further developments and innovations are coined to our company's philosophy. Together with you, we gladly work out the right solutions for your ideas and guarantee that these are implemented to your entire satisfaction. In this way individual construction projects emerge in private and industrial fields without necessitating any compromises in terms of function, safety or comfort. We work reliably and within the discussed budget in order to give your façade the chance of creating moving moments.

Automatic wooden folding shutters. Design and function – here photovoltaics.

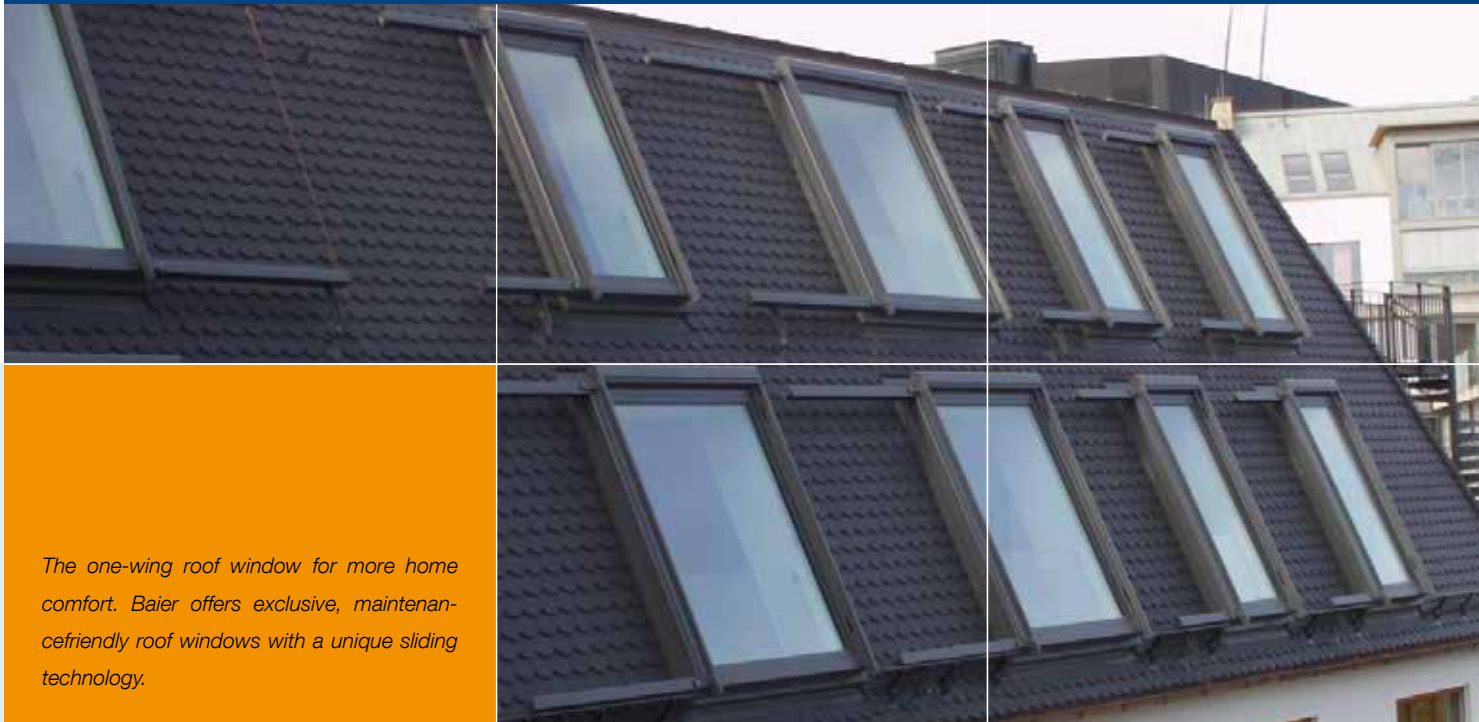

Aluminium, glass and wood – the perfect combination. Round arch sliding windows for sales success.

Modern, custom-made conservatory. Sliding shutters at "Alter Hof" in Munich.

ROOF WINDOW SHUTTERS – SUN PROTECTION AND PRIVACY SCREEN

Baier means movement. – Just in time

Baier roof window shutters are suitable for one-wing and two-winged roof sliding windows and exits. Patented, easily assembled and easy to retrofit.

Roof sliding windows by Baier offer optimized light and temperature conditions.

Sun protection for highest demands in your roof.

- Heat, cold and hail protection
- Easy to clean
- Light protection and privacy shield
- Burglary and noise protection
- Electrical, via switch or radio controlled

Roof window shutters already left their infancy and today provide even more than weather and noise protection: while they firstly protect you of glances into your insides, they should also catch everyone's eye – in their function as a design element!

Comfort, function and design. These are values that run through the whole Baier product range. While our technical development never rests on its laurels and always works on improving our proven technology, our designers are committed to detect the zeitgeist and prompt slip it into our design and colouring. That of course always happens in close contact with roof window manufacturers. Thereby attention is taken to not following a trend but to achieve sustainability. No matter if single pieces or special roof window shutters for major projects with large quantities.

ASSEMBLY AND SERVICE – FROM ONE SINGLE SOURCE

Baier means movement. – Just in time

Baier service. Our family-oriented way of thinking is reflected clearly in our customer service. Friendly, fast and reliable. Nationwide. Service that creates movement.

- Competent advice
- Flexible through lean structures
- Solution development
- Deposition of drawings through in-house design office
- Nationwide assembly and maintenance
- Nationwide aftercare
- Basic and further training

Our Baier customer service is our daily lived philosophy. Cause only a product which is a clear and visible realisation of a customer's specific wishes and which is delivered and assembled reliably, can guarantee ultimate pleasure and provide those moving moments which Baier customers do appreciate so much.
